

AGRI-PLEX®

LIQUID CALCIUM

GUARANTEED ANALYSIS

Calcium (Ca) 6.00%
 Chlorine (Cl) not more than 11.00%
Derived from: Calcium lignosulfonate.

DIRECTIONS FOR USE

Agri-Plex is formulated for use in fluid fertilizer manufacturing or as a foliar spray. Broadcast or row applications are acceptable, although greater efficiency may be expected from row application. **CAUTION:** Do not use in a tank mix with high phosphate “Starter” or “Popup” materials such as 10-34-0. Any residue in this container is water soluble. Rinse with water and add to tank.

Fluid Fertilizer Manufacturing: Agri-Plex does not require premixing before addition to the fertilizer. When mixing a batch tank, add Agri-Plex to water or nitrogen solution before adding phosphate material. Agitate thoroughly.

Foliage Spray: Agri-Plex will disperse in water with minimum agitation and is compatible with most pesticides if the following mixing sequence is used: 1. Water, 2. Agri-Plex, 3. Pesticide.

When foliar spraying Agri-Plex, use 20 gallons of water per acre through conventional sprayers. With low volume equipment, use 5 gallons of water per acre. If less water is used, slight burning of foliage may occur. A jar test to check the compatibilities of new or unfamiliar combinations should be performed prior to mixing and application.

RECOMMENDED RATES

Broadcast Application:

Severe deficiency 4 quarts per acre
 Moderate deficiency 2 quarts per acre
 Maintenance 1 quart per acre

Row Application: Use at a rate of 2 quarts per acre as a supplement to broadcast applications.

Foliar Applications: Apply at a rate of 1-3 quarts per acre when crop is 6-12 inches high or when deficiency symptoms appear. Spray either early or late in the day for maximum leaf absorption.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil and other conditions may vary, Agri-Business Technologies, Inc. and/or the seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use or handling whether or not in accordance with directions or suggestions.
