

# AGRI-PLEX<sup>®</sup>

## LIQUID IRON

### GUARANTEED ANALYSIS

Sulfur (S) Combined .....	3.60%
Iron (Fe) .....	5.00%
<i>Derived from: Iron lignin sulfonate.</i>	

### DIRECTIONS FOR USE

Agri-Plex is formulated for use in fluid fertilizer manufacturing or as a foliar spray. Broadcast or row applications are acceptable, although greater efficiency may be expected from row application. **CAUTION:** Do not use in a tank mix with high phosphate "Starter" or "Pop-up" materials such as 10-34-0. Any residue in this container is water soluble. Rinse with water and add to tank.

**Fluid Fertilizer Manufacturing:** Agri-Plex does not require premixing before addition to the fertilizer. When mixing a batch tank, add Agri-Plex to water or nitrogen solution before adding phosphate material. Agitate thoroughly.

**Foliage Spray:** Agri-Plex will disperse in water with minimum agitation and is compatible with most pesticides if the following sequence is used: 1. Water, 2. Agri-Plex, 3. Pesticide.

When foliar spraying Agri-Plex, use 20 gallons of water per acre through conventional sprayers. With low volume equipment, use 5 gallons of water per acre. If less water is used, slight burning of foliage may occur.

### FIRST AID

**If swallowed:** DO NOT induce vomiting. Immediately call physician.

**Eye contact:** Flush eyes with clean water for 15 minutes. Immediately call physician.

**Skin contact:** Remove contaminated clothing and wash skin thoroughly with soap and water. Call a physician if irritation develops or persists.

**If inhaled:** Move victim to fresh air and call a physician. *If there is contact made with the spray solution containing pesticides and / or spray adjuvants, follow the "Statement of Practical Treatment" on the product labeling.*

### PRECAUTIONS

Avoid getting in eyes, mucous membranes or on skin. Use with adequate ventilation. Keep container capped when not in use. **KEEP OUT OF REACH OF CHILDREN.** Do not contaminate feed, seed, or water supplies.

### CONTAINER DISPOSAL

Triple rinse empty containers and offer for recycling or dispose of in accordance with federal, state and local authorities.

### RECOMMENDED RATES

#### Broadcast Application:

Severe Deficiency .....	4 quarts per acre
Moderate Deficiency .....	2 quarts per acre
Maintenance .....	1 quart per acre

**Row Application:** Use at a rate of 2 quarts per acre as a supplement to broadcast applications.

**Foliar Applications:** Apply at a rate of 1-3 quarts per acre when crop is 6-12 inches high or when deficiency symptoms appear. Spray either early or late in the day for maximum leaf absorption.

### CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil and other conditions may vary, Agri-Business Technologies, Inc. and/or the seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use or handling whether or not in accordance with directions or suggestions.
