

AGRI-PLEX® Liquid Cal-Bee

Liquid Calcium-Boron —GUARANTEED ANALYSIS—

(Expressed as a percent of the element)

Calcium (Ca)	6.00%
Boron (B)	2.00%
<i>(Derived from Calcium Chloride and Sodium Borate)</i>	
Chloride not more than 11%	

DIRECTIONS FOR USE

Any residue in this container is water soluble. Rinse with water and add to tank.
Foliage Spray: Agri-Plex will disperse in water with minimal agitation. Most pesticides can be added and applied while spraying Agri-Plex. Be sure to follow the mixing sequence: **1**—Water **2**—Agri-Plex **3**—Pesticide.

When foliar spraying Agri-Plex, use 20 gallons of water per acre through conventional sprayers. With low volume equipment use 5 gallons of water per acre. If less water is used, slight burning of foliage may occur.

CAUTION Keep Out Of Reach Of Children

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin and clothing. Avoid breathing spray mist.
READ LABEL! FOLLOW DIRECTIONS!

WHAT TO DO IN CASE OF CONTACT:

If Swallowed: Do Not induce vomiting. Immediately call physician

Eye Contact: Flush eyes with clean water for 15 minutes. Immediately call a physician.

Skin Contact: Remove contaminated clothing and wash skin with soap and water. Call a physician if irritation develops or persists.

If Inhaled: Move to fresh air and call a physician if irritation develops or persists.
If there is a contact made with the spray solution containing pesticide and/or adjuvants, follow the "Statement of Practical Treatment" on the product labeling.

CROP RECOMMENDATIONS

Vegetables: Apply at the rate of 1-2 pints per acre per week in the normal spray program.

Watermelons: Apply 2 quarts per acre in enough water to cover. Repeat 1 to 2 times at 14 day intervals.

Tree Crops: Apply 1 to 2 pints per 100 gallons of final spray, beginning two to three weeks after full bloom. Repeat every 14 days.

Cotton: Apply at the rate of 1 qt. per acre in enough water to allow for thorough coverage. Repeat at 10-14 day intervals starting at early bloom. Do not exceed one gallon total per acre.

Soybeans: Apply 2 quarts per acre at early set and an additional application of 2 quarts per acre in 14 days.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop, soil and other conditions may vary, Agri-Business Technologies, Inc. and/or the seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use or handling whether or not in accordance with directions or suggestions.

STORAGE

Store in a cool place in original container in a locked storage area inaccessible to children, pets, or wildlife. **Container Disposal:** Do not reuse empty containers. Triple rinse empty containers and offer for recycling or dispose in accordance with federal, state and local authorities.
